Subject: ERRS Contract Document Preparation

Mikal,

Here are the statement I think you will need to modify the TO for Dimock to Kemron when I give you the green light for water delivery. Not given yet!!!!

I thought you and Jackie would appreciate getting these ready to go.

Statement of Work: Deliver water for household use to homes identified by the EPA OSC. This includes delivery to temporary storage tanks located at the homes and also drinking water. Operation and maintenance of the storage tank systems, as needed to ensure delivery of water to the house, is included in the scope. Support activities such as power, water, portable toilet, etc. at the EPA command post will also be needed.

Certification of Contract SOW - This scope is entirely within the scope of the ERRS contract.

DBA - This work is no DBA

Cost - remaining at \$50,000 from the initial TO.

CBI - The contractor will not be asked to handle any CBI. There is no CBI identified at this site.

Let me know if you need anything else or have any questions. I will let you and Jackie know when we get the green light.
